Moderate

Major

Extreme

Weather Key Points

Regional Operations Center

Western Region

Friday, November 25

- The Santa Ana wind event will continue to wind down through the day Friday
 - Wind gusts of 20-40 mph (locally 45-55 mph in the most prone mountains) will continue across much of southern California through Friday morning
 - Elevated to critical fire weather conditions will continue through Friday morning due to warm temperatures and continued dry conditions
 - Winds will slowly decrease through the day Friday, with some winds turning onshore by late Friday into Saturday
- Very light precipitation is possible across far northern California for Friday into Saturday, with no significant impacts expected
- A little better chance for rain and mountain snow will develop across the state late Sunday through Tuesday, with generally light precipitation possible; the heavier precipitation looks to remain north and east of the state
 - Accumulating snow could impact mountain travel, primarily in northern California
 - Gusty winds will develop in many locations with this storm, but higher relative humidities will reduce the threat of significant fire weather concerns

Daily Precipitation Forecast

Regional Operations Center

Western Region

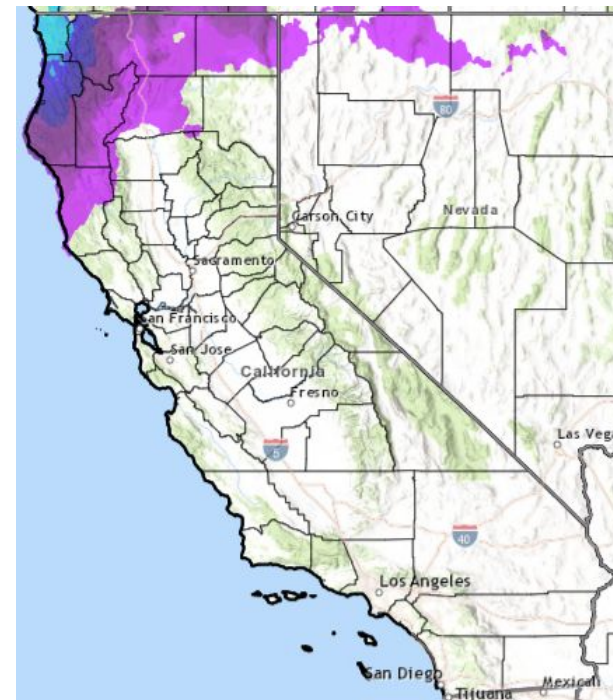

Friday, November 25

Friday

Saturday

Sunday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Friday, November 25

6-10 Day Outlook (November 30 - December 4)

Temperatures

- Below normal temperatures are strongly favored statewide

Precipitation

- Above normal precipitation is favored statewide

8-14 Day Outlook (December 2 - December 8)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Above normal precipitation is favored across central California, otherwise near normal precipitation is favored across the remainder of the state

Impact Level Definition

1. **Impactful weather is not expected.**
2. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Localized impacts on commerce possible.
 - b. Includes events that occur frequently.
3. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Impacts on commerce possible.
 - b. Includes events that occur a few times per year.
4. **Actions likely needed to save lives and/or property.**
 - a. Significant impacts to commerce possible.
 - b. Includes events that occur infrequently.
5. **Actions required to save lives and/or property.**
 - a. Significant and extended impacts to commerce.
 - b. Includes exceptionally rare events.
